

GGGCAGTTAG

The image displays a DNA double helix structure. The backbone is represented by a yellow line. The base pairs are colored and arranged as follows: a red base pair (A-T) under the first G, a green base pair (C-G) under the second G, a blue base pair (C-G) under the third C, an orange base pair (A-T) under the fourth A, a red base pair (A-T) under the fifth G, a green base pair (C-G) under the sixth T, a blue base pair (A-T) under the seventh T, and an orange base pair (A-T) under the eighth G.
