

CCCCAGCATA

The image displays a DNA sequence CCCCCAGCATA. The first four 'C's are blue, the 'A' is green, the 'G' is orange, the 'C' is blue, the 'T' is red, and the final 'A' is green. A red horizontal line is positioned below the second 'C', with a red rectangular block underneath it. A green horizontal line is positioned below the first 'C'. An orange horizontal line is positioned below the 'G'. A blue horizontal line is positioned below the 'T'. A red horizontal line is positioned below the 'A' at the end of the sequence. A green horizontal line is positioned below the 'C' before the 'T'. A blue horizontal line is positioned below the 'A' at the end of the sequence.
